AluTruk With P-Handle and Puncture Proof Tyres

Product code: K27AY10SG

This sack truck supports up to 300kg loads with its robust anodised aluminium lattice frame. It can be operated by just one hand - there's a single holding point provided by the vertical loop and ‘P-Handle’. This means the user has a free hand to direct the AluTruk unit wherever it needs to go (and opening doors is easier too). We make it easier to get over the stairs and kerbs (and help to protect them) by fitting the stair glides with skid strips, made of low-friction polymers. Even better, the skid strips are replaceable and it's easy to change them if they do get worn out. For a smoother ride when under load this sack truck is fitted with Puncture proof wheels fitted with durable precision bearings!

Load capacity	300kg
Height	1310mm
Width	520mm
Length	500mm
Material	Aluminium
Industry	Food and drink delivery
Brand	Alutruk
