

## Heavy Duty 9tonne Steerable Skate

**Product code: SKSTSK9HD-COMPLETE**

These skates are designed to be used to move heavy loads on a regular basis. Tough powder-coating and heavy-gauge steel frames coupled with top quality components make these very robust units the choice of the professional user. • Large diameter rollers... for good, even weight distribution offering maximum floor protection • Quality thrust bearing... the platform swivels on this for steering around tight bends • One metre draw bar... included for even easier manoeuvring • Rubber non-slip pad... fixed on the platform to reduce risk of load slippage • Range of capacities... available in a convenient range of up to 20 tonnes. NB. Finish colour supplied may differ from that illustrated
